

Black lines - **cut**
 Gray lines - **score**
 Dashed lines - **reference**

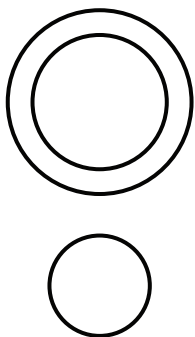

Use 4mm foam for base and "nose",
 2mm elsewhere

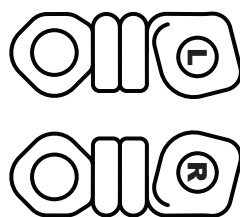

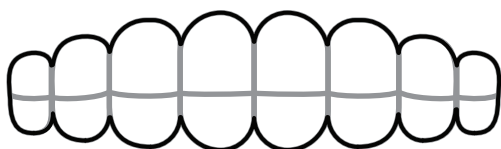

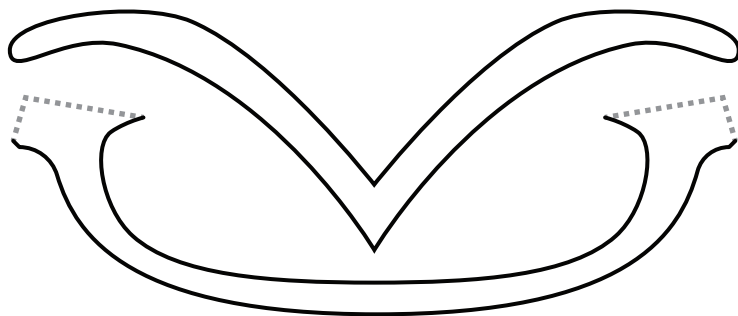

Extra dimensionality can
 be added with foam clay
 or other sculpting/carving

Markings indicate
 center point of eyes and
 high point of "nose".

Personally I found
 it easier to just
 sculpt the outer
 rings rather than
 cut small pieces

Cut points of 'chin' extra wide and
 don't glue down with rest of piece.
 Attach "ears" first then cut chin
 points to fit underneath.
